WEB DEVELOPMENT

ACTIVITY-BASED LEARNING (ABL)

Consolidated Report: Instructions, Screenshots & Source Code

Student Name	B.Sai Siddardha
Roll Number	26000009
Branch / Section	B.Tech CSE / CSE-CORE-1
Course	Web Development
Required Repository	WD-Activity-Based-Learning

Prepared from the supplied institute circular, three HTML files, and three website screenshots. Fill in the roll number and section before submission.

1. Assignment Instructions (from the supplied circular)

The circular dated 15-10-2026 asks B.Tech students to complete a Web Development Activity-Based Learning assignment during the Dussehra holidays. Students must select any three case studies from the faculty-provided list of 30, design and develop webpages, create a GitHub repository named **WD-Activity-Based-Learning**, upload all three case studies and one consolidated PDF containing screenshots, and maintain a README.md containing name, roll number, branch, section, and the titles of the three selected case studies.

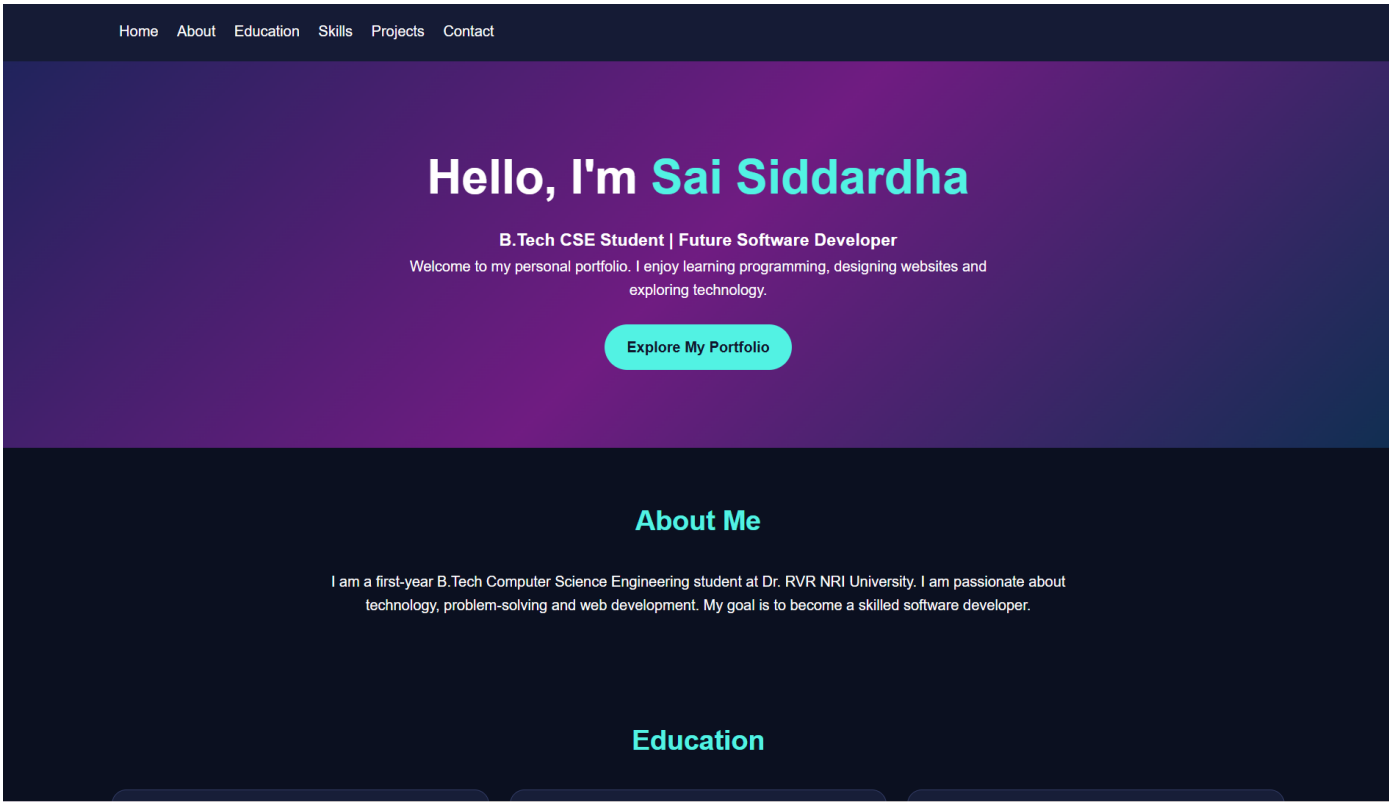

Evaluation is worth 10 marks and considers webpage design, GitHub repository organisation, and the student's understanding. The circular says the repository URL should be submitted to the respective Web Development faculty member or Lab Mentor on the first working day after the holidays. This is an individual assignment; students should be ready to explain and demonstrate the webpages.

2. Selected Case Studies and Screenshots

Case Study 1 — Personal Portfolio Website

Source file: case1.html

Portfolio with Home, About, Education, Skills, Projects, Hobbies & Achievements, and Contact sections.

Case Study 2 — ColorCart Online Shopping Website

Source file: case6.html

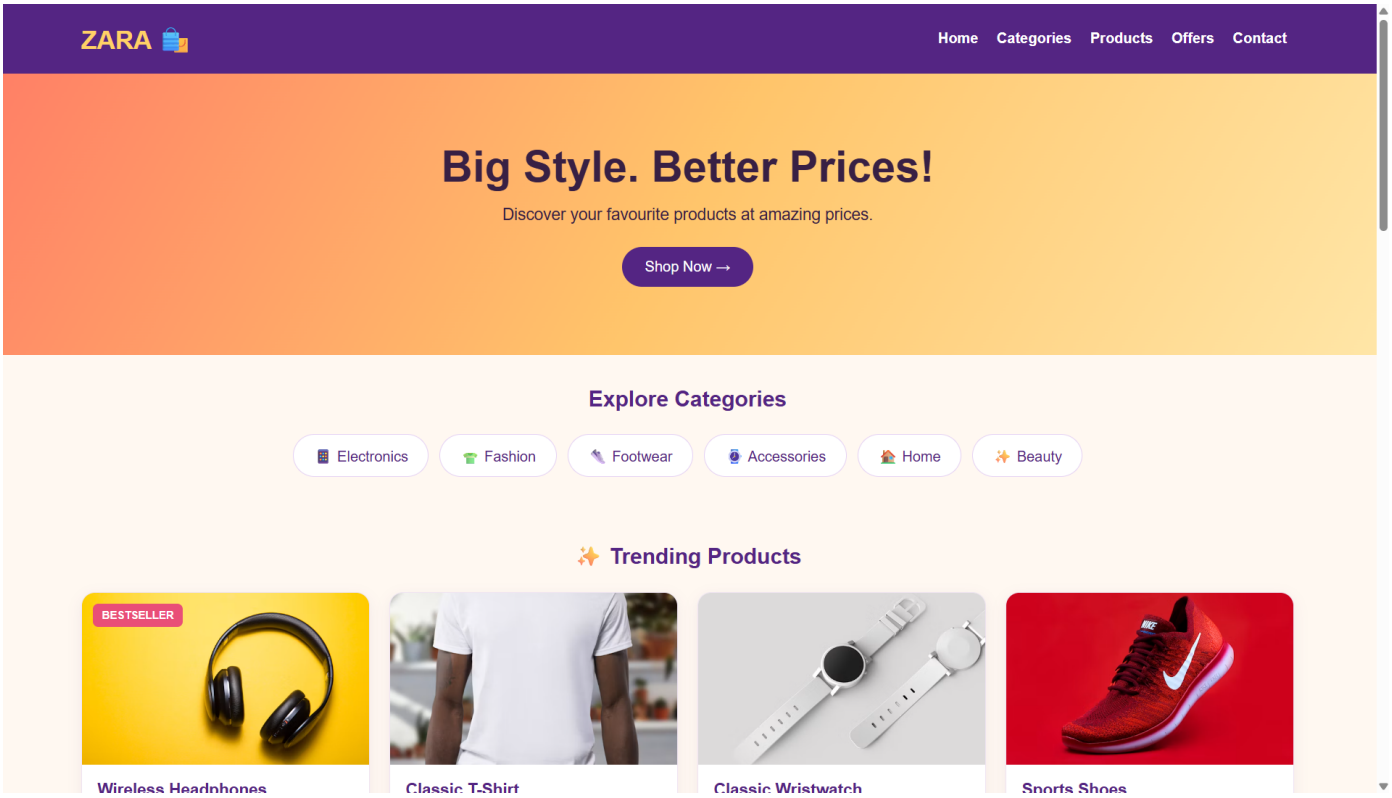

Shopping interface with categories, product cards, ratings, prices, discounts, offers, and contact information.

Case Study 3 — Nexland Electronics Store

Source file: case7.html

Electronics storefront with search, category filtering, product details, cart interactions, offers, and product comparison.

3. Technologies and Features

HTML and CSS: used in all three pages to structure and style the website. **Responsive layouts:** CSS media queries are present in the portfolio and shopping pages. **JavaScript:** the electronics store includes interactive actions such as category filtering, adding products to a cart, and showing product details.

4. Submission Checklist

- ■ Fill in roll number and section in this report and README.md.
- ■ Include case1.html, case6.html, and case7.html in the repository.
- ■ Include README.md and this consolidated PDF.
- ■ Create the GitHub repository named WD-Activity-Based-Learning.
- ■ Test the pages in a browser and prepare to explain the code.

5. Source Code Appendix

The complete contents of each supplied HTML file are included below for reference. Code is printed in a compact monospace font.
